

Make your stuffy come to life!

Inspired by *WINK*

Inspiration:

What happens when you go to sleep? In Spellbound's performance *Wink*, a bedroom transforms into an imaginative world full of surprises. Today, we'll use a bit of Spellbound magic to bring our stuffies, lovies and stuffed animals to life!

How To:

Pick a stuffy and find an space in your home where you can move around. Breathe - move your stuffy slowly like it's breathing.

Focus - Turn your stuffy's head to look at the ceiling, the floor, you, your child, etc.

Try different types of movement and activities with your stuffy.

Walking, jumping, crawling, blowing kisses, high fives and peek-a-boo.

What other games can your stuffy and your child play?

Connect:

0-2 Years:

Parents can be the puppeteer and use the stuffy to invite your baby/toddler to play

2-5 Years:

Choose two stuffies so parent and child can puppet at the same time. Can you make them walk together? Jump together? Play a game?

What did you come up with?
